

EVI-60 Range – EI60 and EW60 Rated Insulated Pressure Relief Vents

Certification of Compliance

UK, US and Europe Design Protection

The unique design of the EVI-60 range is protected under copyright worldwide.

Fire Rating Certification

The EVI-60 Range of 300 and 500 vents are Tested to:-

EN1363-1 1999 EI60 & EW60 - Chiltern International

**Certified to EN13501-2 to – E20, E30, E60,
EI20, EI30, EI45, EI60**

Free Vent Area Certification

The EVI-60 have been fully tested in our test rig using both Air Flow and Pressure to confirm the free vent areas stated on the product data sheet.

As part of our tests we have tested for leakage of the vent in the closed position and the maximum leakage is 0.06% FVA

The unique testing of performance provides Our clients with peace of mind that if required the EVI-60 Range of PRD's will perform as required.

The EV-i60 vent will operate in a fire condition unlike units with Intumescent Grille.

The New EVI-60 Range from AFP Air Technologies LLP
